Education

BE **Osmania University**, Computer Science Hyderabad, IN
• Won in National Level Hackathon: Hack-O-Mania Apr 2021 – May 2025
• Advisor: Prof. Ruhiat Sultana

Experience

Rootz Communication, Junior Machine Learning Engineer Riyadh, SA
• Built an automation software for inventory management. Aug 2024 – Aug 2025
• Used Logistic Regression Machine Learning Model to track and predict incoming emails 1 year 1 month
and check whether they are regarding purchase orders.
• Streamlined inventory management and report generation process.
Open-source, Contributor Remote
• Contributed to several Open-source repositories: Kestra-io, OpenLibrary, Dodo Payments May 2024 – present
and more. 1 year 8 months
• Fixed Bugs, Backend Flows and worked on front-end issues.

Projects

arXiv Research Assistant

Artificial Intelligence Research Automation Software

- Used Google-ADK to build a multi-agent sequential Artificial Intelligence model.
- Fetches latest research papers from arXiv website on desired Topics and makes a summary of latest advancements.

Retail Radar

A smart multi-agent dynamic pricing tool

- Built using Google-ADK, Python and SerpAPI.
- fetches 10+ listings of the said product, computes the market average price of the products fetched.

Wordsmith

Fine-Tuned Gemma Model

- Built using Gemma open weights, Python, Parameter efficient Fine-Tuning (PEFT) and more.

Diabetes Prediction Model

Machine learning model to predict whether patient has diabetes or not using various parameters.

- Used multiple machine learning algorithms like neural networks, K-Means Clustering, Logistic Regression and more.

Skills

Languages: Python, JavaScript, TypeScript, Java, Lua, HTML, CSS, SQL

Frameworks & Libraries: PyTorch, TensorFlow, Scikit-Learn, Pandas, Numpy, Flask, Django, React.js, Next.js, Node.js

Infrastructure: Faiss, ChromaDB, MongoDB, AWS, GCP, PostgreSQL, MySQL, SSMS, Docker, FireBase, Git, Linux

Certifications

Scientific Computing with Python: Charles Severance

Agents Intensive Multi-Agent Course: Kaggle, Google
